

OPEN FERRULES for ropes + cables

ADVENTURE PARKS

The best solution to join a steel wire rope with textile ropes.
What you need to do is just apply the ferrule directly on the ropes to connect and crimp with the press die especially designed for our portable crimping machines.

CRIMPING SYSTEM

HYDRAULIC PUMP FGC CP700-EC – ART. PD.0000345

Portable battery operated system	290x190x205 mm
Power	200 W
Software to register all cycles on the PC	Plug&Play system

CRIMPING HEAD FGC PP130-C – ART. PD.0000511

Compression force	130 kN
Compression section	400 mm ²
Head opening	28 mm
Operating pressure	700 bar (70 M Pa)

CRIMPING DIE U13-DC120AL – ART. PD.0000686

Section

Oval

OPEN FERRULES TN16-L20 – PD.0000726

Section

Oval

Material

Aluminum

Internal section (l x h)

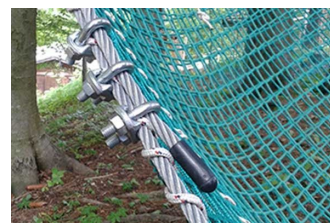

31 x 16 mm

ADVANTAGES:

- Easy and quick installation
- More resistant against corrosion
- Clean and linear appearance
