

ADVENTURE PARKS

MOBILE WORKSHOP FOR THE CONSTRUCTION OF ADVENTURE PARKS AND ROPE COURSES

FGC offers a complete installation kit to cut and crimp wire ropes and ferrules.
A mobile workshop consisting of a reinforced fabric bag with the hydraulic pump and a rigid suitcase for the crimping & cutting heads and dies.
All on a compact portable trolley to facilitate transport in vehicles.

THE KIT INCLUDES:

BAG WITH HYDRAULIC PUMP

SUITCASE WITH CUT&CRIMP
HEADS

TROLLEY

HYDRAULIC PUMP FGC CP700-EC – ART. PD.0000345

Portable battery operated system	290x190x205 mm
Power	200 W
Software to register all cycles on the PC	Plug&Play system

CRIMPING HEAD FGC PP130-C – ART. PD.0000511

Compression force	130 kN
Compression section	400 mm ²
Head opening	28 mm
Operating pressure	700 bar (70 M Pa)
Wire rope diameters	from 5,00 to 12,00 mm

CRIMPING HEAD FGC PP230-C – ART. PD.0000573

Compression force	230 kN
Compression section	800 mm ²
Head opening	50 mm
Operating pressure	700 bar (70 M Pa)
Wire rope diameters	from 5,00 to 16,00 mm

CUTTING HEAD FGC PS25 – ART. PD.0000351

Compression force	60 kN
Head opening	50 mm
Operating pressure	700 bar (70 M Pa)
Wire rope diameters	from 5,00 to 16,00 mm

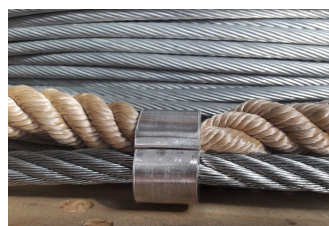

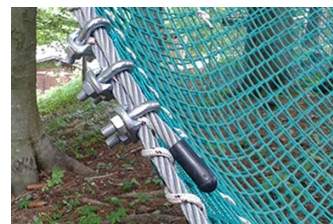

ADVANTAGES:

- Easy to transport and to handle
- Everything you need in one solution
- Quick interventions on the construction site, making sure that you have not forgotten anything
